Policy 3.7

Special Items from Home

Due to the number of children that come into the Two Wells Community Children's Centre, it is always hard to monitor what children bring in to the centre. For this reason and also due to the risk of the items being lost or damaged, we are asking that children leave all their toys at home.

The children will have special days in which they will be able to bring something into the centre for "Show and Tell".

Security items (teddies or blankets for sleeping and dummies) are able to be brought into the centre, but please check with staff and also ensure that all items are clearly marked with your child’s name.

Any items that are brought into the Centre are brought at the families’ own risk.

Dear __________

As per our Special Items from Home Policy, could you please refrain from sending items with your child to play with at the centre, as it creates a number of problems such as sharing between children, loss and damage of the item, choking risk to other children etc.

Thank you for your assistance,
Sarah Donovan-Wormald
Director
Two Wells Community Children’s Centre
